

Amendments to the Claims

This listing of claims will replace all prior versions, and listings of claims in the application:

Listing of Claims:

- Claim 1. (Currently Amended) A process for preparing a coating which comprises
- a) applying to a porous and/or absorbent substrate a liquid coating composition comprising at least one component having (meth)acryloyl groups and a dynamic viscosity of less than 2000 mPa.s and 0.1 to 10 wt.%, based on the non-volatile content of the coating composition, of an additive comprising a ~~member selected from the group consisting of polyamides, oligomeric fatty acid amides and polymeric fatty acid amides~~ polyamide, and
 - b) polymerizing the composition with radiation.

Claim 2. (Original) The process of Claim 1 wherein the substrate is paper.

Claim 3. (Original) The process of Claim 1 wherein the substrate is cardboard.

Claim 4. (Original) The process of Claim 1 wherein the substrate is cloth.

Claim 5. (Original) The process of Claim 1 wherein the substrate is wood.

Claim 6. (Original) The process of Claim 1 wherein the substrate is a wooden material.

Claim 7. (Original) The process of Claim 1 wherein the substrate is fiberboard.

Claim 8. (Original) The process of Claim 1 wherein the substrate is a ceramic substrate.

Claim 9. (Original) The process of Claim 1 wherein the substrate is a mineral substrate.

Claim 10. (Original) The process of Claim 1 wherein the substrate is a porous plastic.

Claim 11. (Cancelled).

Claim 12. (Original) A coated substrate prepared by a process which comprises

- a) applying to a porous and/or absorbent substrate a liquid coating composition comprising at least one component having (meth)acryloyl groups and a dynamic viscosity of less than 2000 mPa.s and 0.1 to 10 wt.%, based on the non-volatile content of the coating composition, of an additive comprising a ~~member selected from the group consisting of polyamides, oligomeric fatty acid amides and polymeric fatty acid amides~~ polyamide and
- b) polymerizing the composition with radiation.

Claim 13. (Original) The coated substrate of Claim 12 wherein the substrate is paper.

Claim 14. (Original) The coated substrate of Claim 12 wherein the substrate is cardboard.

Claim 15. (Original) The coated substrate of Claim 12 wherein the substrate is cloth.

Claim 16. (Original) The coated substrate of Claim 12 wherein the substrate is wood.

Claim 17. (Original) The coated substrate of Claim 12 wherein the substrate is a wooden material.

Claim 18. (Original) The coated substrate of Claim 12 wherein the substrate is fiberboard.

Claim 19. (Original) The coated substrate of Claim 12 wherein the substrate is a ceramic substrate.

Claim 20. (Original) The coated substrate of Claim 12 wherein the substrate is a mineral substrate.

Claim 21. (Original) The coated substrate of Claim 12 wherein the substrate is a porous plastic.

Claim 22. (New) The process of Claim 1 wherein the polyamide comprises oligomeric fatty acid amides.

Claim 23. (New) The process of Claim 1 wherein the polyamide comprises polymeric fatty acid amides.

Claim 24. (New) The process of Claim 12 wherein the polyamide comprises oligomeric fatty acid amides.

Claim 25. (New) The process of Claim 12 wherein the polyamide comprises polymeric fatty acid amides.
